

Pipestone System Cares

At the core of community is humanity. As a core value of our company, **CARING** in the communities we touch is a focus. **PIPESTONE CARES** is an initiative launched in 2015.

Pipestone System Pig Farms are owned by family farmers. The farmer owner groups contribute farm funds to charitable projects in communities the sow farms are located. They believe in the importance of giving back and helping to make their communities stronger.

Community Outreach

Our primary mission is to support causes that assist communities in areas of emergency services, community development, hunger and children. Our farmers raise safe and healthy pork every day and want to use it to help support your community. If your non-profit group is hosting a fund raiser, consider us for sponsoring pork for your event.

Historical Giving

In 2019, over \$195,000 was donated in local communities across the Midwest.

Check out our website at <https://www.pipestone.com/community/> to see where Pipestone Cares funding has helped in a community near you.

Today, as we continue to raise pork everyday, we will continue giving back to our communities.
